

Professional Photographers of Canada
Photographes professionnels du Canada

Promoting Excellence in Professional Imaging / Promouvoir l'excellence en imagerie professionnelle

Recent events including the Black Lives Matter movement, have focused our attention on systemic racism abroad and in Canada. Although we are an organization committed to be Canada's leader in developing and maintaining the highest level of photographic excellence, we also stand firmly against racism in any form. We continue to embrace diversity when it comes to race, religion, sexual orientation, gender identity and language and welcome anyone with an interest in professional photography. We are an open and fair organization where all members are expected to adhere to our Code of Ethics. We are committed to looking at ways we can become a better organization; to be more welcoming and inclusive of all photographers from all communities.
